SAFETY DATA SHEET

1. IDENTIFICATION

Product Name: Reliable Brand Citrus Metered Air Freshener
Product Number: V00489
Company Information: Veritiv Operating Company
1000 Abernathy Rd NE. Suite 1700
Atlanta, GA 30328 United States
Company Phone: (844) 837-4848
Emergency Telephone US: (866) 836-8855
Emergency Telephone
Outside US: (952) 852-4646
Version: 01
Recommended Use: Air Freshener
Recommended Restrictions: DO NOT USE IN A MANNER INCONSISTENT WITH THE LABEL

2. HAZARD IDENTIFICATION

Physical Hazards: Flammable aerosols Category 1
Health Hazards: Serious eye damage/eye irritation Category 2A
Specific target organ toxicity, Category 3 narcotic effects
Single exposure

Label Elements
Signal Word: Danger
Hazard Statement: Extremely flammable aerosol. Causes serious eye irritation. May cause drowsiness or dizziness.
Precautionary Statement: Precautions:
- Keep away from heat/sparks/open flames/hot surfaces. - No smoking. Do not spray on an open flame or other ignition source. Pressurized container: Do not pierce or burn, even after use. Avoid breathing mist or vapor. Wash thoroughly after handling. Use only outdoors or in a well-ventilated area. Wear eye/face protection.
Response:
- If inhaled: Remove person to fresh air and keep comfortable for breathing. If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center/doctor if you feel unwell. If eye irritation persists: Get medical advice/attention.
Storage:
- Store in a well-ventilated place. Keep container tightly closed. Store locked up. Protect from sunlight. Do not expose to temperatures exceeding 50°C/122°F.
Disposal:
- Dispose of contents/container in accordance with local/regional/national/international regulations.
Supplemental Information: None
Hazard(s) not otherwise classified (HNOC): None Known

3. COMPOSITION/INFORMATION ON INGREDIENTS

Reliable Brand Citrus Metered Air Freshener
V00489
4. FIRST-AID MEASURES

Inhalation: Move to fresh air. Call a physician if symptoms develop or persist.
Skin Contact: Take off contaminated clothing and wash before reuse.
Eye Contact: Rinse with water. Get medical attention if irritation develops and persists.
Ingestion: Rinse mouth. Get medical attention if symptoms occur.
Most Important Symptoms/Effects: May cause drowsiness and dizziness. Headache. Nausea, vomiting. Irritation of
nose and throat. Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision.

NOTE TO PHYSICIAN: Provide general supportive measures and treat symptomatically. Keep victim
under observation. Symptoms may be delayed.

5. FIRE FIGHTING MEASURES

Suitable Extinguishing Media: Alcohol resistant foam. Water fog. Carbon Dioxide (CO₂).
Carbon dioxide, san or earth may be used for small fires only.

Unsuitable Extinguishing Media: Do not use water jet as an extinguisher, as this will spread the fire.

Specific Hazards Arising from the chemical: Contents under pressure. Pressurized container may explode when exposed to
heat or flame. This product is a poor conductor of electricity and can become electrostatically charged. If sufficient charge is accumulated, ignition of
flammable mixtures can occur. To reduce potential for static discharge, use
proper bonding and grounding procedures. This liquid may accumulate static electricity when filling properly grounded containers. Static electricity
accumulation may be significantly increased by the presence of small quantities
of water or other contaminants. Material will float and may ignite on surface of
water.

Special Protective Equipment And Precautions for Firefighters: Firefighters must use standard protective equipment including flame retardant
cloth, helmet with face shield, gloves, rubber boots, and in enclosed spaces, SCBA.

Fire-Fighting Equipment/Instructions: Move containers from fire area if you can do so without risk. Containers should
be cooled with water to prevent vapor pressure build up. For massive fire in
cargo area, use unmanned hose holder or monitor nozzles, if possible. If not,
withdraw and let fire burn out. Use standard firefighting procedures and consider
the hazards of other involved materials. Move containers from fire area if you can
do so without risk. In the event of fire and/or explosion do not breathe fumes.
Specific Methods: Cool containers exposed to flames with water until well after the fire is out.

6. ACCIDENTAL RELEASE MEASURES

Personal Precautions: Keep unnecessary personnel away. Keep people away from and upwind of
spill/leak. Keep out of low areas. Wear appropriate protective equipment and
clothing during clean-up. Emergency personnel need self-contained breathing
equipment. Do not touch damaged containers or spilled material unless wearing
appropriate protective clothing. Ventilate closed spaces before entering them.
Local authorities should be advised if significant spillages cannot be contained.
For personal protection, see section 8 of the SDS.

Environmental Precautions: Avoid discharge into drains, water courses or onto the ground. Use appropriate
containment to avoid environmental contamination.
Clean-Up Methods: Refer to attached safety data sheets and/or instructions for use. Eliminate all
ignition sources (no smoking, flares, sparks, or flames in immediate area). Keep combustibles (wood, paper, oil, etc.) away from spilled material. Stop leak if you
can do so without risk. Move the cylinder to a safe and open area if the leak is
irreparable. Isolate area until gas has dispersed. Prevent entry into waterways,
7. HANDLING AND STORAGE

Handling:
Minimize fire risks from flammable and combustible materials (including combustible dust and static accumulating liquids) or dangerous reactions with incompatible materials. Handling operations that can promote accumulation of static charges include but are not limited to: mixing, filtering, pumping at high flow rates, splash filling, creating mists or sprays, tank and container filling, tank cleaning, sampling, gauging, switch loading, vacuum truck operations. Pressurized container: Do not pierce or burn, even after use. Do not use if spray button is missing or defective. Do not spray on a naked flame or any other incandescent material. Do not smoke while using or until sprayed surface is thoroughly dry. Do not cut, weld, solder, drill, grind, or expose containers to heat, flame, sparks, or other sources of ignition. All equipment used when handling the product must be grounded. Do not re-use empty containers. Avoid breathing mist or vapor. Avoid contact with eyes. Avoid prolonged exposure. Use only in well-ventilated areas. Wear appropriate personal protective equipment. Observe good industrial hygiene practices.

Storage:
Level 3 Aerosol. Contents under pressure. Do not expose to heat or store at temperatures above 120°F/49°C as can may burst. Do not puncture, incinerate or crush. Do not handle or store near an open flame, heat or other sources of ignition. Store in a well-ventilated place. Store away from incompatible materials (see Section 10 of the SDS).

8. EXPOSURE CONTROLS/PERSONAL PROTECTION

Occupational Exposure Limits
US OSHA Table Z-1 Limits for Air Contaminants (29 CFR 1910.1000)

Engineering Controls: Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide eyewash station.

Personal Protective Equipment:
Eyes: Not required for normal use. If contact is likely, safety glasses with side shields are recommended.

Hands: Not required for normal use. For prolonged or repeated skin contact use suitable protective gloves.

Respiratory: None required for normal use. If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn.

Feet: Wear suitable protective clothing.

Body: Wear suitable protective clothing.

General Hygiene Considerations: When using, do not smoke. Always observe good personal hygiene measures such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants.

9. PHYSICAL AND CHEMICAL PROPERTIES

Appearance
Physical State Liquefied gas.
Form Aerosol.
Color Yellow
Odor Citrus
Odor Threshold Not Available
pH Not an aqueous solution
Melting point/Freezing point Not Available
Initial boiling point and boiling range Not Available
Flash Point -156.0°F (-104.4°C) Propellant estimated
Evaporation Rate Not Available
Flammability (solid, gas) Not Available
Upper/Lower flammability or explosive limits
Flammability Limit – Lower (%) Not Available
Flammability Limit – Upper (%) Not Available
Explosive Limit – Lower (%) Not Available
Explosive Limit – Upper (%) Not Available
Vapor Pressure 45 – 65 psig @70°F
Vapor Density Not Available
Relative Density Not Available
Solubility (Water) Not Available
Partition Coefficient Not Available
Auto-Ignition Temperature Not Available
Decomposition Temperature Not Available
Viscosity Not Available
Specific Gravity 0.800

10. STABILITY AND REACTIVITY

Chemical Stability Material is stable under normal conditions.
Reactivity The product is stable and non-reactive under normal conditions of use, storage and transport.
Possibility of Hazardous Reactions Hazardous polymerization does not occur.
Conditions to Avoid Avoid heat, sparks, open flames and other ignition sources. Contact with incompatible materials.
Hazardous Decomposition Products No hazardous decomposition products are known.

11. TOXICOLOGICAL INFORMATION

Information of Routes of Exposure: No LC50/LD50 Test Data on Mixture Available
Acute Effects/Symptoms:
Eyes: Causes serious eye irritation.
Skin: No adverse effects due to skin contact are expected.

Reliable Brand Citrus Metered Air Freshener
V00489
12. ECOLOGICAL INFORMATION

Ecotoxicity/Chemical Fate: Not Test Data on Mixture Available

13. DISPOSAL CONSIDERATION

Disposal Method: Dispose of contents in accordance with all federal, state, and local applicable laws and regulations. Consult state and local authorities for restrictions on disposal of chemical waste. Manage chemical wastes through an approved waste treatment facility. Pressurized container: Do not pierce or burn, even after use. Do not incinerate. When contents are depleted continue to depress button until all gas is expelled. Aerosol cylinder is not refillable. Give to a disposal service equipped to safely dispose of pressurized containers. Please recycle packaging whenever possible.

14. TRANSPORTATION INFORMATION

DOT/IMDG/TDG UN1950, Aerosols, flammable, 2.1, LTD. QTY.

15. REGULATORY INFORMATION

US Federal Regulations This product is a “Hazardous Chemical” as defined by the OSHA Hazard Communication Standard, 29 CFR 1910.1200. All components are on the US EPA TSCA Inventory List.

TSCA Section 12(b) Export Notification (40 CFR 707, Subpt. D) Not Regulated.
