

V02331, V02332

CHEMICAL FREE STRIPPING PAD

Description

The Chemical Free Stripping Pad is constructed of synthetic fibers in a textured, nonwoven fabrication. Abrasive particles are distributed throughout and bonded to the nonwoven construction with thermosetting resins.

Directions for use

Dust mop or sweep floors prior to stripping. Use pad until soil and finish are removed from floor, or desired appearance is achieved. Pick up water residue with a mop, wet vacuum or automatic scrubber. Rinse floor and let dry prior to recoating or opening to traffic. If used dry, vacuum or dust mop the residue.

Construction

The Chemical Free Stripping Pad is constructed of synthetic fibers and thermosetting resins that will not be notably affected by water or cleaners normally used for floor maintenance.

Product care

To prolong the life of this product, it may be washed using a hose with a pressure spray nozzle to remove soil. To dissolve heavy soil or finish, this pad may be soaked in detergent or diluted stripping solution prior to washing.

Features/Benefits

This pad is designed to strip or deep scrub floors without the use of chemicals. It may be used either wet or dry. Used for repairing wood floor finishes and preparing for recoating.

Specifications

V02331: 20" dia
Center hole: 3.25"
V02332: 14" x 20"
Thickness: 0.35"
Weight: 20 osy
Fiber type: Synthetic
Binder system: Thermosetting resins
Binder application: Spray/Dip
Abrasive application: Spray/Dip
Abrasive: Yes
Color: Maroon

Packaging

10/Case
