## BLUE CLEANER PAD

### Description

The Blue Cleaner Pad is constructed of polyester fibers in a semi open textured, nonwoven fabrication and is designed for medium scrubbing. Abrasive particles are dispersed throughout and bonded to the nonwoven construction with a durable adhesive.

### Directions for use

Dust mop or sweep floors prior to scrubbing. Use pad until soiled finish is removed from floor. Pick up cleaning solution with a mop, wet vacuum or automatic scrubber. Rinse floor and let dry prior to recoating or opening to traffic. Polish with Reliable Brand® polishing/burnishing pad to achieve a high gloss finish.

### Construction

The Blue Cleaner Pad is constructed of polyester fibers along with synthetic adhesives that will not be notably affected by water or cleaners used in standard floor maintenance. The abrasives used in this product are synthetic. This pad has been designed for use on both sides.

### Product care

To prolong the life of this product, it may be washed using a hose with a pressure spray nozzle to remove soil. To dissolve heavy soil or finish this pad may be soaked in detergent or diluted stripping solution prior to washing.

### "Green" initiative

- The polyester fiber used in our pads comes from 100% post-consumer and industrial recycled waste products.
- Full Cycle® formulated to biodegrade\* in a fraction of the time that it takes conventional floor pads once discarded into an active landfill.
- Water-based latex resins are used in the manufacturing process. No phenol-formaldehyde resins are used in our binding process.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.
- In-house water treatment has reduced our waste water flow by 83%.

### Features/Benefits

Use with a neutral floor cleaning solution to remove old soiled floor finish layers. This product is also used to scrub soiled hard surface floors such as concrete when used with appropriate cleaning chemicals. Ideal for use with machine speeds up to 350 rpm.

### Specifications

V02060: 17" dia  
V02061: 19" dia  
V02062: 20" dia  
Center hole: 3.25"  
Thickness: 1.0"  
Weight: 40 osy  
Fiber type: Recycled polyester  
Binder system: Cross-linkable, water-based  
Binder application: Spray/Dip  
Abrasive application: Spray/Dip  
Abrasive: Yes  
Color: Blue
