ACTION™ SPRAY RTU DISINFECTANT CLEANER

Description

This quaternary based, anti-bacterial cleaner is an ideal disinfectant spray for use in hospitals, nursing homes, schools and hotels. Provides excellent performance in cutting grease, heavy soil and filth with quick drying times. Efficacious against TB, Staph Aureus, Salmonella, Pseudomonas and E-coli, also virucidal when used on pre-cleaned environmental surfaces against HIV-1 (AIDS virus) and Canine Parvovirus.

Product directions

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. This product is not for use on critical or semi-critical medical device surfaces. **Disinfection, deodorizing, and cleaning:** Remove gross filth or heavy soil prior to application of the product. Hold container six to eight inches from surface to be treated. Spray area until it is covered with the solution. Allow product to penetrate and the surface to remain wet for 3 minutes (for Bloodborne Pathogens: allow surface to remain wet for HIV-1 1 minute and for HBV and HCV 5 minutes). No scrubbing is necessary. Wipe off with a clean cloth, mop or sponge. This product will not leave grit or soap scum. **Disinfection of animal quarters and kennels:** Before using this product, remove all animals and feed from premises. Remove all litter and droppings from floors, walls and surfaces of facilities occupied or traversed by animals. Empty all troughs, racks and other feeding and watering appliances. Thoroughly clean all surfaces with soap or detergent and rinse with water. Apply this product for disinfection of pre-cleaned animal quarters and kennels. Saturate the surfaces with this product for a period of 3 minutes (for Bovine Viral Diarrhea Virus (BVDV) 5 minutes) (for Feline Calicivirus and Rabies virus 30 seconds) (for Canine Parvovirus 10 minutes). Ventilate building and other closed spaces. Do not house animals or employ equipment until treatment has been absorbed, set or dried. All treated equipment that will contact feed or drinking water must be rinsed with potable water before reuse. Using approved AOAC test methods, in the presence of 5% blood serum and a 3 minute contact time, unless otherwise noted, this product kills the following organisms on hard non-porous inanimate surfaces: **Bactericidal activity:** Pseudomonas Aeruginosa, Listeria Monocytogenes, Staphylococcus Aureus, Salmonella (Choleraesuis) Enterica, Enterococcus Faecium, Escherichia Coli, Escherichia Coli O157:H7, Streptococcus Pyogenes (Necrotizing Fasciitis-Group A). **Antibiotic-resistant bactericidal activity:** Methicillin Resistant Staphylococcus Aureus (MRSA), Vancomycin Resistant Enterococcus Faecalis (VRE), Vancomycin intermediate resistant Staphylococcus Aureus (VISA). **Tuberculocidal activity:** This product exhibits disinfectant efficacy against Mycobacterium Tuberculosis BCG at 20 degrees Centigrade (20° C) when the treated surface is allowed to remain wet for 5 minutes. **Virucidal activity:** This product kills on hard, non-porous inanimate surfaces when allowed to remain wet for a 10 minute contact time against: Hepatitis A Virus (HAV), Poliovirus Type 1, Canine Parvovirus. This product, when used on environmental, inanimate hard surfaces exhibits virucidal activity against: Hepatitis B Virus (HBV), Hepatitis C Virus (HCV) and Bovine Viral Diarrhea Virus (BVDV) when the treated surface is allowed to remain wet for 5 minutes; Human Coronavirus, SARS associated Coronavirus and Avian Influenza A strains H3N2 and H9N2 for 2 minutes; Rhinovirus type 39, and Rotavirus for 3 minutes; HIV-1 (associated with AIDS) for 1 minute (60 seconds); and Norovirus (Norwalk virus), Feline Calicivirus and Rabies Virus (CDC) for 30 seconds. Kills Pandemic 2009 H1N1 Influenza A virus (formerly called swine flu). **Kills HIV-1, HBV and HCV on pre-cleaned environmental surfaces/objects previously soiled with blood/body fluids in health care settings (hospitals, nursing homes) or other settings in which there is an expected likelihood of soiling of inanimate surfaces/objects with blood or body fluids, and in which the surfaces/objects likely to be soiled with blood or body fluids can be associated with the potential for transmission of Human Immunodeficiency Virus Type 1 (HIV-1) (associated with AIDS), Hepatitis B Virus (HBV) and Hepatitis C Virus (HCV). Special instructions for cleaning and decontamination against HIV-1, HBV, and HCV on surfaces/objects soiled with blood/body fluids: personal protection:** When handling items soiled with blood or body fluids use disposable latex gloves, gowns, masks, and eye coverings. **Cleaning procedures:** Blood and other body fluids must be thoroughly cleaned from surfaces and objects before application of this product. **Contact time:** Allow surface to remain wet for HBV and HCV 5 minutes, for HIV-1 1 minute. These contact times will not control other common types of viruses and bacteria. **Disposal of infectious materials:** Blood and other body fluids must be autoclaved and disposed of according to local regulations for infectious waste disposal. **Fungicidal activity:** This product is fungicidal against the pathogenic fungus, Trichophyton Mentagrophytes (Athlete's Foot Fungus) (a cause of ring worm of the foot), when used with a 10 minute contact time on clean, non-porous, hard surfaces as found in bathrooms, shower stalls, locker rooms, or other areas commonly contacted by bare feet. **Efficacy tests have demonstrated that this product is an effective bactericide, fungicide and virucide in the presence of organic soil (5% blood serum).**

First aid

In case of contact with eyes or skin, immediately flush with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. **If swallowed** drink promptly a large quantity of milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician or poison control center immediately. Take container, label or product name and registration number with you when seeking medical attention.

Application

Action™ RTU is designed specifically as a general non-acid cleaner and disinfectant for use in hospitals, nursing homes, schools, hotels and restaurants.

Features/Benefits

Broad spectrum disinfectant: kills TB, HBV, HAV, HCV, Staph, Salmonella and Pseudomonas

Meets requirements of OSHA bloodborne pathogen standard

Quat-based formula for use on a variety of hard, nonporous environmental surfaces

Quickly cuts grease, cleans, disinfects and deodorizes hard surfaces

Specifications

Color: Clear

Scent: Citrus bouquet

pH: 11.7 – 12.7

Dilution: RTU

Density: 1.006

EPA registration number: 1839-83-82440

Packaging

V01409: 12/1 qt
