

V02070, V02071

AQUA ULTRA HIGH SPEED BURNISHING PAD

Description

The Aqua Ultra High Speed Burnishing Pad is constructed of polyester fibers in a textured, nonwoven fabrication.

Directions for use

Dust mop floors prior to burnishing. Use pad until finish gives high gloss. Dust mop again to remove dust from burnishing.

Construction

The Aqua UHS Burnishing Pad is made of 100% recycled polyester fibers and water-based resins. This pad has been designed for use on both sides.

Product care

To prolong the life of this product, it may be washed using a hose with a pressure spray nozzle to remove soil. Allow pad to dry completely before using again.

"Green" initiative

- The polyester fiber used in our pads comes from 100% post-consumer and industrial recycled waste products.
- Full Cycle® formulated to biodegrade* in a fraction of the time that it takes conventional floor pads once discarded into an active landfill.
- Water-based latex resins are used in the manufacturing process. No phenol-formaldehyde resins are used in our binding process.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.

Features/Benefits

This pad is used to burnish floor finishes to a high gloss. Recommended for use on soft to medium finishes. Excellently suited for frequent burnishing. Ideal for use with machine speeds up to 3000 rpm.

Specifications

V02070: 20" dia
V02071: 27" dia
Center hole: 3.25"
Thickness: 1.0"
Weight: 32 osy
Fiber type: Recycled polyester
Binder system: Cross-linkable, water-based
Binder application: Spray/Dip
Abrasive application: n/a
Abrasive: n/a
Colour: Aqua
Green Seal™ certified

Packaging

5/Case

Full Cycle® Products are certified by Green Seal® for Environmental Innovation based on faster biodegradation in landfill conditions and 100% recycled content/natural fiber. GreenSeal.org/GS20
