

V02345

CELLULOSE SPONGE

Description

The Cellulose Sponge is a cleaning tool consisting of soft, porous material. Cellulose Sponges are generally used for cleaning impervious surfaces. They are especially good at absorbing water and water-based solutions.

Directions for use

Use sponges with plain water or neutral pH cleaning detergents for use in cleaning all above floor surfaces. Wring sponge dry to absorb moisture or spills.

Construction

Cellulose Sponges are made from cellulose wood fibers. They are highly absorbent for a wide variety of cleaning applications.

Features/Benefits

Especially good at absorbing water and water-based solutions.
