## GRIDDLE POLISH PAD

### Description

The Griddle Polish Pad is made of polyester fibers in an open textured, nonwoven pattern. Abrasive particles are dispersed throughout and bonded to the nonwoven construction with a durable adhesive.

### Directions for use

Use between the griddle cleaning holder and griddle screen when cleaning griddles.

### Construction

The Griddle Polish Pad is constructed of polyester fibers along with synthetic binders that will not be notably affected by water or cleaners used in standard maintenance.

### Product care

To prolong the life of this product, it should be rinsed thoroughly after use.

### "Green" initiative

- The polyester fiber used in our pads comes from 100% post-consumer and industrial recycled waste products.
- Water-based latex resins are used in the manufacturing process. No phenol-formaldehyde resins are used in our binding process.
- Shipping cartons contain at least 45% recycled material.
- Plant is operating under EPA approved Clean Air Permit.

### Features/Benefits

For use as padding between the griddle cleaning holder and the griddle screen. Adds life to the screen. Also, may be used for polishing griddles.

### Specifications
