

# V02334

## GRIDDLE SCREEN

### Description

The Griddle Screen is made with silicon carbide abrasives and is used to remove food particles and carbonized grease that can collect on grill grates or griddles.

### Directions for use

For optimal results, a grill-brick may be used prior to loosen heavily stuck on residue or food particles. Then use the Griddle Screen with a griddle pad. The pad will soak up charred residue and food particles, preventing the screen from clogging. Heat resistant up to 350 degrees.

### Construction

Griddle Screens are constructed with water proof resins and silicon carbide abrasives. Open mesh construction resists clogging.

### Product care

Griddle Screens may be rinsed and reused to prolong the product's life. Rinsing the screens removes debris and buildup in the screen and will prolong the life of the product.

### Features/Benefits

The Griddle Screen is used to clean charred grills and the accumulation of grease and food particles on griddles/grills.

### Specifications

Size: 4" x 5.75"

Thickness: 0.03"

Weight: 0.0148 lb

Material: Silicon carbide gritted screen

Colour: Black

### Packaging

V02334: 360 (36 bags of 10)
